Projects

JobPortal| *Django,* HTML*, CSS, JavaScript, Bootstrap, Responsive Web Design*   **Jan'24– March 2024**

- Enable users to create accounts, apply for jobs, and view job listings.
- Allow recruiters to post, edit, and delete job listings, track applicant numbers, and download resumes.
- Provide admins the ability to manage all users, recruiters, and applicants, and download data in Excel, PDF, or CSV formats.
- Include login/logout and password change functionalities for secure access.
- Utilize Django, HTML, CSS, JavaScript, and Bootstrap to build a responsive web design, ensuring an optimal user experience across all devices.
  - Github Repository Link: **https://github.com/RavindraKumar/ Job_Portal**

CURD | *Django,* HTML*, CSS, JavaScript, Bootstrap, Responsive Web Design*   **Jan 2023 – Jan 2023**

- Utilized Django for handling data management and user authentication, ensuring robust and secure operations.
- Implemented HTML, CSS, and JavaScript to create a user-friendly interface for smooth interaction.
- Applied Bootstrap to ensure the web application is fully responsive, providing an optimal viewing experience on all devices.   • Developed a comprehensive database interface that enabled seamless Create, Read, Update, and Delete   operations reduced data entry errors by 30%, resulting in increased reliability for over 500 user accounts.
